

U.S. Forest Service Briefing Paper National Forest System

Date: 5/15/2018

Topic: ePermits Scale up Survey

Background

We are working to modernize and simplify our permitting processes. One facet of this work is to make it possible to purchase and/or apply for Non-Commercial Group Use, Temporary Outfitter Guide, and Christmas Tree Permits online.

Over the past year, the Forest Service and partners developed an application to support an online option to obtain the aforementioned permits. We are currently piloting the ePermits application for Non-Commercial Group Use and Temporary Outfitter Guide permits on the Mount Baker Snoqualmie Forest, and for Christmas tree permits on the Arapaho Roosevelt, Shoshone, Flathead and Mt. Hood National Forests.

Survey Request

Our next step is to make the application available to additional forests. This survey will help us understand how to best move forward as we scale-up to offer online permits nationally. We really appreciate you taking some time to complete this survey and help us out.

Thank you for timely response.

If you have any questions please contact Aaron Burk at aaronburk@fs.fed.us and/or Mark Trammell mark.trammell@gsa.gov
